

Dear Parent/Guardian(s),

Welcome to the Technovation Girls Community!

Thank you for supporting your daughter to participate in Technovation Girls, the technology entrepreneurship program and competition for young women offered by [Technovation](#), a science and engineering non-profit.

During the program, your daughter will learn the basics of computer programming and create a mobile app that solves a problem in her community. She will learn to be a technology entrepreneur! Technovation Girls is more than a coding program; it is an opportunity for your daughter to develop a variety of life and professional skills and challenge herself.

It won't always be easy, but she will be encouraged to persist when she meets adversity and obstacles. Completing the Technovation Girls curriculum is a huge accomplishment for every participant. When she is done, she will have completed the early stages of founding a real-life mobile app startup. Your daughter's learning is at the center of all that we do. We share your commitment to your daughter's success and have created a page to help you understand [more about the Technovation program](#), and how you can help support your daughter's participation. We take safety seriously and invite you to review our safety guidelines and other helpful resources [here](#).

Your daughter will work in a team supported by a mentor. Your daughter will complete our online curriculum and will be expected to submit all deliverables (including a pitch video) online. The team can work and communicate with their mentors either online or at in-person sessions. Parents are always welcome to attend any sessions and monitor all communications.

After your daughter's team submits their idea, technology professionals will review the team's entry and provide feedback (either online or in-person) on their work. Through the judging process, if your daughter is selected as a program finalist or winner, she and her team will be invited to attend the World Pitch Summit in the United States and present their pitch live to a panel of judges.

We are delighted to help foster your daughter's interest and development in technology and entrepreneurship and honored to work with young women everywhere as they develop new skills and confidence.

If you have any questions at any time, please don't hesitate to contact us at support@technovationchallenge.org

Warm Regards,
The Technovation Staff

In some cases, we may demonstrate that we have compelling legitimate grounds to process your Personal Information which override your rights and freedoms.

Request restriction of our use of your Personal Information. You may make this request (a) if you want us to establish the data's accuracy; (b) where our use of the data is unlawful but you do not want us to erase it; (c) where you need us to hold the data even if we no longer require it as you need it to establish, exercise or defend legal claims; or (d) you have objected to our use of your data but we need to verify whether we have overriding legitimate grounds to use it.

Request the transfer of your Personal Information to you or a third party. We will provide to you, or a third party you have chosen, your Personal Information in a structured, commonly used, machine-readable format. Note that this right only applies to automated information which you initially provided consent for us to use or where we used the information to perform a contract with you.

If you wish to exercise any of these rights, please contact us at Privacy@IridescentLearning.org. We may need to request additional information from you to help us confirm your identity.
